

SF25 Series

Features	Benefits
Working widths	60" & 72" (1.52m & 1.83 m)
Tractor hp range	25-50 hp (18.6-37.3 kW)
Cat 1 3-Point hitch	For easy attachment to a wide range of tractors
Four ripping depths	Good variation in ripping depth.
Heat treated steel shanks	Won't bend or break.
Replaceable shank tips	Can be easily replaced when damaged or worn without having to replace entire shank.
Rear hitch with floating top link	Allows for second implement to work in conjunction with the Scarifier such as a Landscape Rake. Compatible with Land Pride 15 & 25 Series Rakes and Blades.
5/16" (8 mm) Wall thickness on the shank tube	High tensile strength to take the pressure from the shanks.
5/16" x 1" (8mm x 25 mm) Full length reinforcement bar	Adds additional strength to shank tube right behind shank where pressure is applied while dragging through the ground.
Warranty	One year parts and labor.
