

### RP30 Ripper

Features	Benefits
<b>Universal Quick Attach Hitch</b>	Ripper fits most skid steers and track loader hitches.
<b>Reinforced hitch plate</b>	Designed to stand-up against heavy shock loads.
<b>Heavy shank tube with 1" thick steel surrounding the shanks at the bottom of the square tube.</b>	Shank mounting tube is designed to handle heavy shock loads.
<b>Heavy-duty bolt-on skid shoes</b>	Designed for long life. Bolt-on makes them easy to replace.
<b>Heat-treated steel shanks</b>	Wear resistant and won't bend.
<b>Bent shank pin with hairpin keeper</b>	Makes adjusting shank depth and removing shanks easy and tool less.
<b>Four ripping depths (2", 4", 6" &amp; 8")</b>	Provides a wide range of ripping depth.
<b>Replaceable shank tip</b>	Can be replaced if damaged or worn without having to replace entire shank.
<b>Patent Pending Level Indicator</b>	Provides visual indication of Ripper levelness throughout the operation. Operator can adjust Ripper levelness on the go.
