

CC30 Concrete Claw

Features	Benefits
Universal Quick Attach Hitch	Fits a wide variety of skid steer loaders and compact track loaders rated up to 100 hp. Makes the Concrete Claw quick and easy to attach.
High strength T1 steel side panels	Resists bending forces while prying-up concrete slabs.
Side panels are reinforced with continuous welded bottom plate, top plate, and top rectangle tube	Adds strength and rigidity to the attachment.
3/4" x 6" Continuous welded front cutting edge	Adds strength to the attachment and stands up to high wear.
Replaceable pin-on tooth tips	Can be easily replaced as they wear or break.
Two, bolt-on cast steel skid steps	Makes entering and exiting the power machine safer.
