

SGC20 Series

Features	Benefits
Attaches to power equipment easily	Uses Skid Steer Quick Hitch design for quick and easy attachment.
Designed to fit Skid Steer Loaders and Front Tractor Loaders	The quick attach plate mounted grapple can be attached to a wide variety of machines. Note: Tractor Loaders must be fitted with a Skid Steer universal quick attach mounting system.
Designed to protect hydraulic hoses	Hydraulic hoses routed to prevent pinching.
Greasable hardened bushings at all pivot locations	Bushings can be replaced if needed.
1 1/4" Pivot pins	Large diameter pins for extra strength.
Dual hydraulic cylinders	Allows upper jaw to grip the material better.
AR400 teeth material	Stronger than Grade 80 plus increased resistance to abrasion.
