

SGC0660 Model

Features	Benefits
Front loader hitch plate	Fits a wide range of tractor front mounted loaders.
Designed to protect hydraulic hoses	Hydraulic hoses routed to prevent pinching.
3/4" Pivot pins	Large diameter pins for extra strength.
Dual hydraulic cylinders	Allows upper claw to grip the material better.
AR400 teeth material	More than double the strength of mild steel.
High volume cage design	Can handle large volume of material.
Park stands	Allows unit to stand upright when not in use. Makes it easier to attach to tractor front mounted loader.
Greasable jaw pivot	Extends service life.
Third Function Valve Kit (Accessory)	Can control all grapple and loader movements with a joystick. Provides easy hooking and unhooking of hydraulic hoses at the front of the loader.
