

CB1060 Model

Features	Benefits
Four-in-one bucket design	Can be used as a bucket, jaw, scraper, or dozer.
Designed to fit tractors with Universal Quick Attach hitch on front mounted loaders	Easy to attach.
Designed to protect hydraulic hoses	Hydraulic hoses routed to prevent pinching.
1" Pivot pins	Large diameter pins for extra strength.
Dual hydraulic cylinders	Allows upper jaw to grip the material better.
28 1/4" Clamshell opening	Large opening to handle bulky objects.
Reinforced bucket	Adds strength and rigidity to the bucket, clamshell, and dozer features of the four-in-one bucket.
Options	
Third Function Hose Kits For Kubota B & L Tractors	Can control all bucket and loader movements with a joystick. Provides easy hydraulic hose hook-up at the front of the loader.
Hydraulic Hose Kits	Complete the hydraulic connections between bucket and quick connect couplers supplied with the "Optional Third Function Valve Kits". Hook-up is easy at the front of the loader.
