

CA25 SERIES CORE AERATOR

DIRTWORKING

Aeration for professionals

Fall aeration is simple and fast with a Land Pride CA25 Core Aerator. The 3/4" plugs open up the soil allowing oxygen and nutrients to the root zone for healthier turf grasses with stronger root systems. The plugs are deposited on top of the turf and help create an optimal environment for overseeding. Optional Water Tanks shown for additional weight to aid in spoon penetration.

The 3/4" spoon is beveled to easily penetrate the ground and create a nice clean hole.

	CA2560	CA2572
Hitch	Cat. 1	
Working Width (cm)	60" (152)	72" (183)
Weight - lb (kg) (w/o added weight)	464 (210)	480 (218)

CR25 SERIES STRAW CRIMPER

Keep soil and seed where you put it.

If heat, erosion, or run-off is a problem, crimping straw into the ground needs to be the final step in grass seeding. Crimping straw into the soil protects the seed, retains moisture, and aids in germination.
