System

MATERIAL HANDLING

Four tools in one to increase versatility.

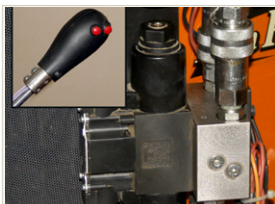

Land Pride's 4-n-1 Combination Buckets increase the versatility of the front loader. As the name implies, 4-n-1 Buckets are designed to act like 4 attachments – dozer blade, scraper blade, grapple, and bucket.

The CB0550 fits Kubota 60 and 70 Series BX Front Loaders and features a 50" width, spill screen, reinforced side plates, and optional 3rd function valve.

The CB1060 is specifically designed to fit compact tractors up to 40 HP and features a universal quick attach plate, 60" width, maximum jaw opening of 28", and 3/16" side panels. The lower jaw is made from grade 80 steel to keep the bucket light but strong.

CB0550

Land Pride 3rd Function Valve accessory kits add versatility and value to your tractor and are available for select Kubota BX, B, LX, L, and MX tractors.
