

RTA20/RTR20 SERIES ROTARY TILLERS

23-75 HP | Cat. 1

We have traditional forward rotation...

Available in two popular widths, the Land Pride RTA20 Series Rotary Tiller effortlessly turns up hard-packed ground, leaving a perfect seedbed for gardens or grass. Suited for up to 50 HP tractors, this model fits a wide range of tractor owners, from landscapers or city and park maintenance operations to golf course superintendents.

And the most popular reverse rotation...

The Land Pride RTR20 Series Rotary Tiller is just right for home gardening, landscape work, food plot maintenance, and light commercial use. Available in a 72" width, RTR20 Series Rotary Tillers feature a reverse tilling action for tough ground conditions. The reverse action of the rotor brings material up and over the top, burying heavier clods and small rocks, leaving the soil on top for a perfect seed bed.

Both models use standard Land Pride features like a strong stamped chain cover, adjustable rear deflector, heavy-duty driveline and parking stand – in the end the quality and dependability shine through.
