Before You Start

When you see this symbol, the subsequent instructions and warnings are serious - follow them without exception. Your life and the lives of others depend on it!

IMPORTANT: Before you begin, read these instructions and check to be sure all parts and tools are accounted for. Please retain these installation instructions for future reference and parts ordering information.

Your Storage Stand is exclusively designed for your Land Pride PD10, PD15, DP25 or PD35 Post Hole Diggers. Please read these installation instructions and your Post Hole Digger Operator’s Manual thoroughly before beginning. Especially read information relating to safety concerns. Also included in the Operator’s Manual is important information on operation, adjustment, troubleshooting, and maintenance for this attachment (some manual sections do not apply to all accessories).

A separate Parts Manual for your digger is available free of charge at www.landpride.com or can be purchased from your nearest Land Pride dealer. Have the model and serial number of your Storage Stand handy when placing an order.

Manual Part Numbers:
- Operator’s Manual .......... 317-048M
- Parts Manual .................. 317-048P

General Information

These assembly instructions apply to the following Storage Stand Accessories listed below:

- 317-166A PD10 Storage Stand . . . . . . Page 2

Tools required:
- Safety glasses and work gloves
- Two 9/16” wrenches (PD15, PD25, & PD35 only)
- Two 3/4” wrenches
- One #13 metric wrench (PD10 only)

Further Assistance

Your dealer wants you to be satisfied with your new storage stand. If for any reason you do not understand any part of this manual or are not satisfied with the service received, the following actions are suggested:

1. Discuss the matter with your dealership service manager. Make sure he has had time to assist you.
2. If you are still not satisfied, seek out the owner or general manager and explain the question/problem.
3. For further assistance write to:

Land Pride Service Department
1525 East North Street
P.O. Box 5060
Salina, Ks. 67402-5060

PD10 Storage Stand Assembly

Part No. 317-166A

Refer to Figure 1-1:

A detailed listing of parts for this accessory kit is provided on page 4. Use the list as a checklist to inventory parts received. Please contact your local Land Pride dealer for any missing hardware.

The Post Hold Digger Support Stand is shipped unassembled. Follow instructions below when assembling the PD10 Post Hole Digger Stand.

**IMPORTANT:** The stand is shipped with four legs. The upper legs (#6B) have decals (#12) and are installed inside lower legs (#6A) with the bent ends pointing in as shown. The bent ends on lower legs (#6A) point out as shown.

See **Note** in Figure 1-1 if decals (#12) are shipped loose in a bag.

1. Attach lower legs (#6A) to upper legs (#6B) with 1/2" x 1 1/4" bolts (#7B) and whiz nuts (#9). Do not tighten whiz nuts at this time.
2. Attach cross bar (#4) to legs (#6A & #6B) with 1/2" x 1 1/4" bolts (#7A) and whiz nuts (#9). Do not tighten whiz nuts at this time.
3. Attach mount (#5) to upper legs (#6B) with 1/2" x 1 1/4" bolts (#7C) and whiz nuts (#9). Do not tighten whiz nuts at this time.
4. Draw all assembled whiz nuts (#9) up snug. Verify legs (#6A) align evenly with legs (#6B) and the top of the cross bar (#4) is parallel with the top of the legs. Torque whiz nuts (#9) to 76 ft-lbs as noted below.
   a. Tighten whiz nuts (#9) on bolts (#7B) while making sure the upper and lower legs align with each other.
   b. Tighten whiz nuts (#9) on bolts (#7A) while making sure the top of cross bar (#4) is parallel with the top edge of legs (#6A & #6B).
   c. Tighten whiz nuts (#9) on bolts (#7C).
5. Attach support angles s (#2) on the left side of tabs (C) on with 1/2" x 1 1/4" bolts (#7D) and nylock nuts (#10). Draw nylock nuts up snug and then back nut up one-half revolution.
6. Attach support angles (#2) to the slotted holes in tabs (C) with hand knobs (#11). Hand tighten knobs.
7. Insert cradle pins (A) in slots (B) and secure cradle (#3) to upper mount (#5) with hand knobs (#11). Hand tighten knobs.
8. Keep M8 x 1.25 bolts (#8) for attaching cradle (#3) to the Post Hole Digger gearbox.

**NOTE:** Upper legs (#6B) are normally shipped with decals (#12) installed. If shipped loose, they should be installed on the two upper legs as follows:

1. Lay the two legs (#6B) on the floor as shown with the bent ends at the top facing in.
2. Attach decals (#12) facing out and approximately 8” down from the top of legs (#6B). For proper label placement instructions, refer to step 4 in the **Safety Label Section** of the Post Hole Digger Operator’s Manual.
**PD10 Cradle Assembly**

**Refer to Figure 1-2:**

The optional storage stand is used for storing the Post Hole Digger off the ground where moisture and debris are more likely to cause damage to the components. It will also assist the operator while hooking-up and unhooking the unit.

**PD10 Storage Stand Assembly**

1. Unscrew locknuts (#11) and remove bolts (#10). Slide auger (#1) off of gearbox (#15).
2. Remove existing bolts (#7), lock washers (#12), flat washers (#13), and auger guards (#3) from underside of gearbox (#14).
3. Position cradle (#5) between auger guards (#3) and gearbox (#14). Make sure cradle pins (#2) are positioned to the back as shown.
4. Attach cradle (#5) and guards (#3) to the underside of gearbox (#14) with new M8 x 1.25 bolts (#7), existing lock washers (#12), and existing flat washers (#13). Torque bolts (#7) to 19 ft-lbs.
5. Reattach auger (#1) to gearbox (#14) with existing 1/2" x 3 1/2" auger bolts (#10) and locknuts (#11). Torque locknuts to 76 ft-lbs.

**PD10 Storage Stand Operation**

⚠️ **WARNING**

To avoid serious injury or death: Do not disconnect Post Hole Digger from the tractor while on a steep incline. Injury to personnel and equipment may result.

Attach storage stand (#8) to cradle (#5) as follows:

1. Stop on solid, level ground, place tractor in park or set tractor park brake, lower auger tip to the ground, turn tractor engine off, and remove the ignition key before dismounting the tractor.
2. If you stop on a gentle slope, chock tractor wheels for an extra measure of safety.
3. Make certain guide slots (#9) are securely positioned over cradle pins (#2). Secure storage stand (#8) to the cradle with hand knobs (#6).
4. Start tractor and lower boom (#4) to rest yoke hitch pins (#15) in support angles (#16). The support angles may require adjustment.
5. Shut tractor down and disconnect three-point hitch.
6. Remove chocks if installed.
7. Start tractor and drive away while being careful not to catch on the Post Hole Digger and/or Storage Stand (#8).

PD15, PD25, & PD35 Storage Stand Assembly

Part No. 317-142A

Refer to Figure 2-1:

A detailed listing of parts for this accessory kit is provided on page 7. Use the list as a checklist to inventory parts received. Please contact your local Land Pride dealer for any missing hardware.

The Post Hold Digger Support Stand is shipped unassembled. Follow instructions below when assembling the PD15, PD25, or PD35 Post Hole Digger Stand.

**IMPORTANT:** The stand is shipped with four legs. The upper legs (#6B) have decals (#14) and are installed inside lower legs (#6A) with the bent ends pointing in as shown. The bent ends on lower legs (#6A) point out as shown.

See Note in Figure 2-1 if decals (#14) are shipped loose in a bag.

1. Attach lower legs (#6A) to upper legs (#6B) with 1/2" x 1 1/4" bolts (#8A & #8B) and whiz nuts (#9). Do not tighten whiz nuts at this time.

2. Attach cross bar (#4) to lower legs (#6A) with 1/2" x 1 1/4" bolts (#8D) and whiz nuts (#9). Do not tighten whiz nuts at this time.

3. Attach mount (#5) to upper legs (#6B) with 1/2" x 1 1/4" bolts (#8C) and whiz nuts (#9). Do not tighten whiz nuts at this time.

4. Draw all assembled whiz nuts (#9) up snug. Verify legs (#6A) align evenly with legs (#6B) and the top of the cross bar (#4) is parallel with the top of the legs. Torque whiz nuts (#9) to 76 ft-lbs as noted below.
   a. Tighten whiz nuts (#9) on bolts (#8A & #8B) while making sure legs (#6A & #6B) align with each other.
   b. Tighten whiz nuts (#9) on bolts (#8D) while making sure the top of cross bar (#4) is parallel with the top edge of legs (#6A).
   c. Tighten whiz nuts (#9) on bolts (#8D).

5. Attach support angles (#3) on the left side of tabs (C) with 1/2" x 1 1/4" bolts (#8E) and nylock nuts (#10). Draw nylock nuts up snug and then back nuts up one-half revolution.

6. Attach support angles (#3) to the slotted holes with 1/2" x 1 1/4" bolts (#8F), lock washers (#11), and flat washers (#12). Torque bolts (#8F) to 76 ft-lbs.

7. Insert cradle pins (A) in guide slots (B) and secure cradle (#2) to upper mount (#5) with knobs (#13). Hand tighten knobs.

8. Keep 3/8" x 1" bolts (#7) for attaching cradle (#2) to the Post Hole Digger gearbox.

**NOTE:** Upper legs (#6B) are normally shipped with decals (#14) installed. If shipped loose, they should be installed on the two upper legs as follows:

1. Lay the two legs (#6B) on the floor as shown with the bent ends at the top facing in.

2. Attach decals (#14) facing out and approximately 8" down from the top of legs (#6B). For proper label placement instructions, refer to step 4 in the Safety Label Section of the Post Hole Digger Operator’s Manual.
**PD15, PD25, & PD35 Cradle Assembly**

Refer to Figure 2-2:
The optional storage stand is used for storing the Post Hole Digger off the ground where moisture and debris are more likely to cause damage to the components. It will also assist the operator while hooking-up and unhooking the unit.

**Storage Stand Assembly**

1. Unscrew locknuts (#9) and remove 1/2"-13 x 3 1/2" GR5 hex head bolts (#8). Slide auger (#4) off of gearbox (#13).

2. Remove existing bolts (#7), lock washers (#11), flat washers (#10), and auger guards (#2) from underside of gearbox (#13).

3. Position cradle (#3) between auger guards (#2) and gearbox (#13). Make sure cradle pins (#5) are positioned to the back as shown.

4. Attach cradle (#3) and guards (#2) to underside of gearbox (#13) with new 3/8" 16 x 1" bolts (#7), existing lock washers (#11), and existing flat washers (#10). Torque bolts (#7) to 31 ft-lbs.

5. Attach auger (#4) to gearbox output shaft with auger bolts (#8) and locknuts (#9).

**Storage Stand Operation**

⚠️ **WARNING**
To avoid serious injury or death: Do not disconnect Post Hole Digger from the tractor while on a steep incline. Injury to personnel and equipment may result.

Attach storage stand (#14) to cradle (#3) as follows:

1. Stop on solid, level ground, place tractor in park or set tractor park brake, lower auger tip to the ground, turn tractor engine off, and remove the ignition key before dismounting the tractor.

2. If you stop on a gentle slope, chock tractor wheels for an extra measure of safety.

3. Make certain guide slots (#6) are securely positioned over cradle pins (#5). Secure storage stand (#14) to the cradle with knobs (#12).

4. Start tractor and lower boom (#1) to rest yoke hitch pins (#15) in support angles (#16). The support angles may require adjustment.

5. Shut tractor down and disconnect three-point hitch.

6. Remove chocks if installed.

7. Start tractor and drive away while being careful not to catch on the Post Hole Digger and/or Storage Stand (#14).
